

Upgrade Program

WE'RE COMMITTED TO PROVIDING YOU THE RIGHT SCANNERS FOR YOUR BUSINESS.

We recognize that requirements change and people make mistakes. There's nothing worse than buyers remorse, especially for a major purchase like a production scanner, which is why we offer our customers the opportunity to upgrade any scanner they've purchased from us within 30 days of shipment. There's no restocking fees, or penalties, just ship the scanner back to us, and pay for the difference in cost between the two scanners. Our goal is to take all the risk out of doing business with us, so you end up with the right solution for your business.

Rental Systems

Does your company have a special requirement, such as film scanning, or a short term paper scanning project that doesn't justify the purchase of a scanner?

Scanner Traders offers stand-alone scanners and complete scanning solutions for rent. All rental solutions include everything you need to start scanning the day you receive the scanner so you can maximize your time with the scanner. All our rental systems include depot warranty, and optional on-site service provided by Imaging 411.
